

FIELD TECHNIQUE – 13

DISENGAGING MANIPULATION

A. *THE EPSILON SEQUENCE*

All **languages** represent portions of the tonal vibration scalar-templates that make up the scalar-grid of the body's manifestation blueprint. **Written language symbols** are scalar-standing-wave guides that translate into tonal vibration **electrical impulse** within the body's scalar template. The electrical impulses emerging from oral and written language forms affect the functions of the **DNA, physical body** and the **perceptual facilities** of embodied consciousness.

Language patterns translate into **mathematical codes** within the contours of consciousness and the body's blueprint, serving as **operational instructions** to the body-mind-spirit system. The **Epsilon Sequence** utilizes 4 specific language symbols from the **Greek** alphabet to engage specific, tonal vibrations and mathematically sequenced, interdimensional electrical impulses within the body's scalar-wave template. This **mathematical formula** for directing interdimensional electrical impulse through the body and DNA template serves to **block, disengage and neutralize** the inorganic scalar-frequency transmissions used in most types of visitor interdimensional **implant technologies**.

This simple technique can be used any time to clear the bio-energetic field of inorganic and unnatural frequency implants, and can be used in attempted abductions directly to **override the bio-neurological block** intruder visitors use to immobilize their abductees. It is unlikely that visitors, such as the Zeta, will proceed with an attempted abduction or implantation if they cannot immobilize the abductee using their standard **motor-function override** frequency-pulse technologies. This technique is also useful in blocking the dis-harmonic, disease-causing frequencies of **UHF, ULF, and Electro-Magnetic Emanations**, and energetic transmissions such as those used in **HAARP, EMP, and Scalar-Pulse** technologies.

1. Visualize the **Epsilon Symbol** in the color-frequency of **Gold** (8th-dimension) stationed at the **Pineal Gland** in the center of the brain. INHALE. Then use the **EXHALE** breath to move the Symbol **down** the Central Vertical Current of the body to the area of the **Base of the Spine**, in the center of the **Tail Bone** (where the dormant Kundalini "life-force energies" are stored).

2. Breathe normally while visualizing the Symbol inside the Tail Bone, and **mentally repeat 3 times** the words “**Epsilon-Phi-Beta-Phi**” (a tonal-vibration “**Mantra**” that translates into mathematical-electrical instructions for the body’s scalar template).
3. Use the next **INHALE** breath to draw the **Epsilon Symbol** back **up** the Central Vertical Current of the body to the **4th Heart Chakra**. **EXHALE** and breathe normally while visualizing the Symbol **inside of the 4th Chakra**.
4. On the next **EXHALE**, repeat the “**Epsilon-Phi-Beta-Phi**” Mantra mentally while using the **EXHALE** breath to **expand the image of the Epsilon Symbol** out of the 4th Chakra into the **bio-energetic field**, as if the Symbol now **surrounds the entire body** like an “egg” of energy.
5. **INHALE** and **repeat the Mantra** again, then use the next **EXHALE** to push more energy from the 4th Chakra into the image of the Epsilon Symbol surrounding the body, making the Symbol **glow bright Gold**. Repeat the **Mantra** once more on the next **INHALE**, and once more “energize” the Epsilon Symbol around the body with the **EXHALE**.
6. Focus your attention at the **Pineal Gland** and once more visualize the **Gold Epsilon Symbol** in the Pineal, while mentally repeating the **Mantra 3 times**. Upon completing the Mantra, **INHALE**—and on the **EXHALE** push the Symbol out of the Pineal Gland into the **bio-energetic field around the head** until it disappears.
